

Navigating the State Library's Website

The New Jersey State Library's website is accessible to anyone at www.njstatelib.org. The first drop down menu on the left "Research Library" contains descriptions of our collections and services for individuals. Note that Library databases are not generally accessible remotely, except to approved users (State Employees and Thomas Edison State University staff and students). However, the catalog, digital collections, and research guides are accessible remotely to everyone. Anyone may also come to the State Library to use databases on library computers. Some databases may also be available for remote use via Jersey Clicks.
